Gather round, friends and neighbors, it's time for the Race Report! It's a new year, and it's a new season! As is tradition, the Martin Sports Car Club kicked off the first event of 2018 at our home sweet home, Lake Tech.

Ah, January in Florida... It's a magical and unpredictable time. Sometimes, it's 70 degrees and perfect. Other times it's 120 degrees and you start to think those nerdy scientists may be on to something with their whole global warming talk. For this particular Sunday, Florida decided to have a winter. By that, I mean it was cold. Real cold. Stupid cold. Dumb scientists... don't know nothin' about nothin'...

The external temp gauge on my car read 36 degrees well into the morning. Those sorts of temperatures, combined with tires that don't like those sorts of temperatures, made for a day of slip-sliding around the course by pretty much everybody.

By the numbers, we had 102 entries – even more than last month! That allowed us to run 3 heats with 5 runs per heat. We had 7 classes with 5 cars or more, including the novices which had a whopping 19 entries!

The track layout had something for everybody. It involved a clockwise rotation, with figure-8 worked into the middle. Most of the gates were relatively wide, which allowed the drivers to try different entries and exits in the corners. It also had a slalom to keep the Miata people happy. Due to the cold, patience had to be exercised with the go and slow pedals. More than a couple folks found the limits of their cars, and themselves, by getting a little too aggressive. Also due to the cold and lack of grip, the rally cars reigned supreme with the Subaru brand claiming the top three fastest raw times.

What's that? You want to know how the class battles went? Well strap on your reading glasses, Buster! In A Street, our reigning/defending (and new jacket wearing) Champion, George Bonafede, showed up with new, blue, and familiar Chevy power. However, he wasn't able to claim a first place in his 2016 Vette's maiden voyage as he was pipped by 0.103 seconds by William Van Tassel and his 2004 Porsche 911.

In STR, our own Erik Mayer claimed his very first STR class win, taking down Nate Adair by only 0.145 seconds! Kevin Madyda was a very close third, trailing Nate by only 0.160 seconds!

In STU, it was a battle of the 2000 Corvettes, with Chris Larson edging out Nick and Jeffrey Dunlap by 0.292 and 1.662, respectively.

In the new STH "Hot Hatch" class, Gabriel Alvarado took first place from Adam Severinsen in Adam's 2012 V-Dub by 0.230 seconds. Rumor has it Adam has eliminated Gabriel from his Christmas card list.

In BSP, there were... actually people in BSP!! Pete Smith and his timeless E36 M3 squeaked by Don Cross by 0.265 seconds!

In quite possibly the coolest class there is, CAM-C, some kid named Thompson took first.

In SMST2, the top three were separated by a little more than 0.5 seconds, with Robert Palmblad (the younger) and his 2008 monster Mazda MX-5 snagging top time over Leeland and John Giddens.

SMST4 saw one Mr. Ryan Speaks take the top time of both the class and of the whole datgum day!

Some say it's because he had brand new RE71r's. Others say it was because he designed the course.

Either way... PROTEST!!!! (Just kidding, Ryan)(Or am I?)

In Novice, Christopher Hoffman joined in the AWD domination by taking 1st place in his 2007 Subie STI. Congratulations and welcome to official classing, Christopher!

Other notable notes:

Timing broke a couple times, but it was fixed.

Smoke in the City BBQ provided food – always delicious!

Kevin Madyda was TTDIS (Top Time of Day In Shorts)

Pray for Kevin Madyda. There's nothing wrong with him, but he did wear shorts... in 36 degree weather...

Special choreographed high-five/handshake goes to Brandon Delli Gatti, who's fighting the good fight in SM and seems to have found a noticeably increased quickness in his 2006 Mazda RX-8. His best time of 42.518 puts him well into the top half of the field. Nice improvements Brandon!

Next month, we're back at Lake Tech, hopefully not getting frostbite! Will the AWD cars continue their dominance? Will BSP continue to have people? Is Global Warming real? Stay tuned!
